

INFECTIOUS DISEASES WEEKLY REPORT

# TOKYO IDWR

Tokyo Metropolitan Research Laboratory of Public Health

21 January 2003 / Number 2

- Number of patients with the diseases required notifying all the cases
- Number of patients with the diseases to be reported by the designated clinics and hospitals
- Disease trend graph (weekly reported cases per fixed-point in comparison)

## Surveillance System in Tokyo, Japan

### The diseases which all physicians must report

All physicians must report to health centers the incidence of the diseases which are shown at page one. Health centers electronically report the individual case to Tokyo Metropolitan Infectious Disease Surveillance Center.

### Fixed-point surveillance

The numbers of patients who visit designated clinics or hospitals during a week are reported to health centers ( There are 37 in Tokyo). And they electronically report the numbers to Tokyo Metropolitan Infectious Disease Surveillance Center. We have about 200 fixed points (clinics and hospitals) in Tokyo.

1<sup>st</sup> Week is early January and 52<sup>nd</sup> Week is end of December.
